The Tariff Plank.

"We denounce the McKinley tariff law enacted by the Fifty-first Congress as the culminating atrocity of class legislation; we denounce Republican protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fun-damental principle of the Democratic party that the Federal Government has no constitutional power to enforce and collect tariff duties except for the purpose of revenue only, and demand that the collection of such taxes shall be limited to the necessities of the government, honestly and eco-nomically administration."

Whitelaw Reid is on the stump i Illinois and Ohio.

There was a split in the Democratic convention in Texas and two tickets were nominated, headed by Hogg and Clark for Governor.

The third party in Tennessee has troublesome split in that State.
